Hero

The Asteroids Galaxy Tour

Hey hero what you do
aint gon wait one heart on you
again and again
Hey hero who are you
Aint got no hit aint got no clue
now give up your name
let us down
dont let us down
Gone find a way
Gone find a way
without you
Though were not the same
No Never the same
without you
oohhh
Where are you my friend so true

How come my love gone make you blue
I saw it today
Tell us all your point of view
tell us a thing we'd never knew
please tell right a way
just tell us now
Dont take us down
Gone find a way
Gone find a way
without you
Though were not the same
No Never the same
without you
Hey hero what you do?
ooh
What you do
mmmm
