Misty's Beside Herself

Sloan

Do you have a dream like mine?
Trips together, fortune find
I would leave my light for you
Is this too good to be true?Misty's beside herself and standing still
If she can hide herself, I'm sure she will
I hated to see a case of love undone
Misty's beside herself to have someoneBeen out on the road and back
Less in love, but still intact
Take success, enjoy it now
Make it last, don't ask me howMisty's beside herself and standing still
If she can hide herself, I'm sure she will
I hated to see a case of love undone
Misty's beside herself to have someoneI love you but I can't resist
Dreams projected iron fists
We shall never be apart
Cross my fingers, cross my heartMisty's beside herself and standing still
If she can hide herself, I'm sure she willMisty's beside herself and standing still
If she can hide herself, I'm sure she will
I hated to see a case of love undone
Misty's beside herself to have someone
