Astronomy

Blue OÌˆyster Cult

Clock strikes twelve and moon drops burst
Out at you from their hiding place
Like acid and oil in a madman's face
His reason tends to fly awayLike lesser birds on the four winds
Like silver scims in May
And now the sand's become a crust
Most of you have gone awayCome Susie dear, let's take a walk
Just out there upon the beach
I know you'll soon be married
And you want to know where winds come fromWell, it's never said at all
On the map that Carrie reads
Behind the clock back there you know
At the Four Winds BarHey, hey, hey, heyFour winds at the Four Winds Bar
Two doors locked and windows barred
One door to left to take you in
The other one just mirrors itHey, hey, hey, heyHellish glare and inference
The other one's a duplicate
The Queenly flux, eternal light
Or the light that never warmsYes the light that never, never warms
Or the light that never, never warms
Never warms, never warmsThe clock strikes twelve and moon drops burst
Out at you from their hiding place
Miss Carrie nurse and Susie dear
Would find themselves at Four Winds BarIt's the nexus of the crisis
And the origin of storms
Just the place to hopelessly
Encounter time and then came meHey, hey, hey, hey
Hey, hey, hey, heyCall me Desdinova, eternal light
These gravely digs of mine
Will surely prove a sight
And don't forget my dog, fixed and consequentAstronomy, a star
Astronomy, a star
Astronomy, a star
Astronomy, a star
