

Come Together

Spiritualized

Little Johnny's almost stuck
'Coz first he jumped and then he looked
Those tracks of time, those tracks are mine
Little Johnny's occupied Come on, come together
Come on, come together Little Johnny had an ache
Hung around the poor boy's mate
Every time that Johnny ate
The little sucker fed the ache Come on, come together
Come on, come together So little J's a messed up boy
Who doled the pain but killed the joy
And little J, he gotta confess
That when he's offered just says, yes Little J is almost stuck
'Coz first he jumped and then he looked
The tracks of time, those tracks of mine
Little J is occupied Come on, come together
Come on, come together Come together
Come together
Come together
