Nobody Died

Saint Saviour

Hey
Anybody know the way back
where I'm from?too much freedom has sent me numb
Ooh, try to kid yourself you knew it all along
but the right way becomes the
wrong one ...But hey, we're ok my friend
nobody died in the end
And these stupid things
don't matter in the light
So hold tight.Ooh, did you ever think it's you
they're looking for
But they don't knock upon your door?
Day becomes the night
and once again,
light a candle, it never endsBut wait, we're ok my friend
nobody died in the end
And these stupid things
don't matter in the light,
hey, you're ok my friend
nobody dies in the end
and these stupid things
don't matter in
'the light'So hold tight
