

Waiting for You

[Ben Harper](#)

I've been waiting for you
Never found anything else to do
But waiting for you I've been calling your name
Never found anything else the same
Nothing's the same I keep hearing your name
Nothing else sounds the same
As hearing your name I've been hoping for you
What else can I do
But keep hoping for you You can kill a lot of time
If you really put your mind to it
Or leave it all behind
And never go through it What else can I do Keep waiting for you
