Pave the Way

Sarah Bettens

I remember waiting in line
I was waiting for the bell to ring
I remember waiting just to hear
My name called again
I can feel a hand on my back in the hall
It was summer time
You know those feelings never left
I feel your hand in mineYeah it was all I could do walking round
With my hand in the air
Cause it was all that I knew at the time
Thought it was right in therePave the way, pave the way, the way
Yeah you pave the way...Nothing could ever reach the days that I spent
On a seat in a bus
Whenever we were early
We'd be the last to class
Walking round like we knew everything
But we never did
Telling everybody trashy stories
'bout how we get so bentYeah it was all I could do walking round
With my hand in the air
Cause it was all that I knew at the time
Thought it was right in therePave the way, pave the way, the way
Yeah you pave the way...
Pave the way
Fly away, pave the way
Fly again, pave the way
Fly away...
Pave the way, pave the way, the way
