Imagination

Nat King Cole, Nelson Riddle And His Orchestra

Music, there are so many things we can do
You can taste, you can touch, you can make moves
Just use your imagination, you are creation, yeah
There are so many things that we can do
Use your imagination
You can taste, you can touch, you can make moves
Use your imagination, use your imagination
Close your eyes, let your expectations fade
I?m your favorite memory, remember me
Never again that you felt this way, lets improvise
If you know how baby, I can be your everything
If you can?t recall
I can show you who you are
I see who you are
I see you, I see your empire
I see you so much higher
It?s time to grow baby
Use your imagination
There are so many things that we can do
Use your imagination
You can taste, you can touch, you can make moves
Use your imagination
There are so many things that we can do
Use your imagination
You can taste, you can touch, you can make moves
Use your imagination
There are so many things that we can do
Use your imagination
You can taste, you can touch, make moves

Open your mind, let your knowingness free
I?m your favorite melody, listen to me
Inside me is the universe, lets explore
Searching for evidence of a higher life force
If you can?t recall
I can show you who you are
I see who you are
I see you
So let me nurture your reality

It?s time to grow baby
Use your imagination
There are so many things that we can do
Use your imagination
You can taste, you can touch, you can make moves
Use your imagination
There are so many things that we can do
Use your imagination
You can taste, you can touch, you can make moves
Use your imagination
It?s all perception my love, all is how we read it
We are more than we think, do you see?
I am of the all and the all is of me
Imagine that, now be, be
Use your imagination
Use your imagination
Use your imagination
Use your imagination
Use your imagination
