

Magical

Shifty

She's magical, magical
The girl's got a spell on me, oh yeah, oh yeah
She's magical, magical

A modern day wizardry, oh yeah, oh yeahNow she's a heart stopper, jaw dropper for real
Baby steals my breath with the sex appeal
She's everything I ever wanted and more

She makes me feel like a kid in a candy storeAn like a rabbit out of a hat, she's a disappearing act
I wink inside the mirror and she always winks back
I'm in room 32, you can come up an see me

I make your bikini disappear like HoudiniIt's our time no time's better than now
You can bite, scratch me an throw me around
You might be the prettiest thing I ever saw

Looking like that should be against the lawShe's just my taste got a face to match
I said, "This is one girl I got to catch"
You might be the one who could set me free

So let work it out, work your magic on meShe's magical, magical
The girl's got a spell on me, oh yeah, oh yeah
She's magical, magical

A modern day wizardry, oh yeah, oh yeahSexy girl, you got a spell on me
You got me running up the street like a dog in heat
You're such an inspiration, you got my heart racing

Got me levitating with your sex educationTell me is it real or just my imagination
Are you looking for love? Well, I'm over here waiting
Baby on the real, can you feel the chemistry?

No smoke an mirrors, I believe what I can seeI believe in you, now could you believe in me?
I feel the energy, you wanna be my fantasy
Hey pretty girl come give me a kiss

It ain't hard to do, it's as easy as thisPut your lips to my lips, put your hands on my side
Move your body closer and look into my eyes
I got a heart made of gold an a bottle full of brew

The only thing I'm missing is youShe's magical, magical
The girl's got a spell on me, oh yeah, oh yeah
She's magical, magical

A modern day wizardry, oh yeah, oh yeahI say, oh yeah, oh yeah
An' say, yeah, oh yeah, ohhShe's magical, magical
The girl's got a spell on me, oh yeah, oh yeah
She's magical, magical

A modern day wizardry, oh yeah, oh yeahMagical, magical
So magical, magical

Magical, magical
So magical, magical
