

# Call Me

## Ace Hood

Call me, call me, call me  
Call me, call me, call me  
I see you with your man  
But girl, is he focused on you?  
'Cause he has wandering eyes  
You say he's Mr. Right  
Now why you askin' friends  
For the answers to the questions why  
He treat you like he do  
And you do all that you do  
It's super women or fool  
Girl, the choice is up to you, say  
Take my number down  
And don't be scared to use it  
Call me anytime, girl  
Ain't no more excuses, call  
Call me, in the morning  
Call me, late in the evening time  
Call me, baby, just call  
Call me, hey ya  
Call me, late in the midnight hour  
Call me  
Say that you love him  
But baby, I can deal with that  
Just in case of emergencies or I  
If you're ever curious  
Situation's serious  
Baby, please remember me  
And when he doing what he do  
And that just don't work for you  
Said I'm down for anything  
Girl, I ain't gon' cause no pain say  
Take my number down and  
Don't be scared to use it  
Call me anytime, girl  
Ain't no more excuses, call  
Call me  
Call me, call me in the evening  
Call me, baby, just call

Call me  
Call me, call  
Call me  
Call me  
You better call  
Call me, call me  
Show them babe  
Call me, in the morning  
Call me, baby on the two way  
Call me, I swear I'm that one for you, baby  
Call me, pick up the cellphone  
Call me, dial my number  
Call me, baby just, why don't you just call me  
Call me, in the morning  
Call me, better call me in the evening  
Call me  
Call me  
Call me  
Call me  
Babe, yeah
