

Astro Man

Jimi Hendrix

Here I come to save the day
A little boy inside a dream just the other day
His mind fell out of his face and the wind blew it away
A hand came out from Heaven and pinned a badge on his chest
It said, "Get out there man and do your best"
And he's called the Astro Man
And he's flyin' higher than
That old fagot Superman
Ever could
Oh, they call him Cosmic Nut
And he's twice as dense as Donald Duck
And he'll try his best to screw you up
The rest of your mind, oh, look out, my guitars
Astro Man, flyin' across the sky
Two times higher than
That old fagot Superman
Ever, ever could, ever could
There he goes, there he goes
Where he stops no one knows
There he goes, there he goes
He's tryin' to, tryin' to blow out the rest of your mind
He's gonna blow out the rest of your mind
Talkin' about lookin' for peace of mind
Astro Man will leave it in pieces
Have you put our trouble behind him
Make you fly around in pieces
Yeah, blow out the rest of your mind
Astro Man will blow out the rest of your mind
He's gonna blow out the rest of your mind
Yeah, yeah, yeah, yeah, yeah
[Incomprehensible]
