

Living Without You

Code Red

After all we've been through
Here we stand with love undeniably true
All our doubters look on
Wonderin' how we have done
What we've done for so long
You know I could not be

CHORUS:

Living without you I can't even think it
Breathing without you I'm in love no doubt without you
Where would I be you make it all complete
And tell me what would I do
No I don't wanna breathe without you
When we think it's as one
When you breathe then I breathe
Cos our bond is so strong
And our laughter it sustains me
Make me wanna live all of our moments again
No way that I could be

CHORUS

Though they say it's just a phase
Still we're together and they're amazed
Living as one in harmony
A perfect love don't you agree

CHORUS x 2
