Be One

Killswitch Engage

With conviction you must
Stand your ground
Don't be deceived
Strength is salvation
It is so easy to live
The life of a follower
We must kill the idols
Don't fall prey to seduction
With single mindedness
We must pursue the truth
Nevermore the victim
Let them say that we
Are not of their world
With the promise of life
We are strong
We will carry on
Kill the idols
No more disillusion

Let them say what they will what they will
Their answer to our higher calling
Is conceived by their hatred
Nevermore the victim
Let them say that we
Are not of their world
With the promise of life
We are strong
We will carry on
With the promise of life
We are strong
We will carry on
Be one, for your conviction
Be one for your devotion you will be hated
For your dedication you will be hated
You will be hated
With the promise of life
We are strong
We will carry on
