Today Like Tomorrow

Jules Shear

I got the message
came right through the day
It said watch where we've come from
between the nearness
and the far away
Make today like tomorrow
for a little while

We can always
talk it over
Dream a dream
and let it go
'cause everything
is always coming later
Make today like tomorrow
for a little while
Make today like tomorrow
for a little while

Time will pass
You'll wonder
where it flew
and every small belief
You know is true
And just when
we've discovered
where it led
The cold has chased us
both into our bed

The consequences
are not the same
In fact, they never are
We'll take the difference
the way it came
Make today like tomorrow
for a little while

If I knew more
I wouldn't tell you

It couldn't matter
if I did
Instead of some
old story I could sell you
Make today like tomorrow
for a little while
Make today like tomorrow
for a little while
Make today like tomorrow
for a little while
