Decision

Missus Beastly

This time you should know
Like the first time that I saw you there alone
Like the first time that I knew you were my ownThe way you made me feel
Like I was something that you couldn't live without
Like I was someone that you couldn't be withoutSomething came in between us
Something made a change in you
What can I do?So you made your decision
I guess it's you that I'll be missin'
I lie alone in bed just wishin'
That I had been the one, that I had been the oneThis time you should know
The way you made me feel so helpless and alone
Erase the memories of all we've ever knownSomething came in between us
Something made us break in two
What can I do?So you made your decision
I guess it's you that I'll be missin'
I lie alone in bed just wishin'
That I had been the one, that I had been the oneNow I think I'm goin' crazy
Now you're stuck inside my head
I don't ever wanna feel this way againWhen you look in the mirror
Does it all seem clear to you?
Have I been used?So you made your decision
It won't be me that you'll be missin'
I lie alone in bed just wishin'
That I had been the one, that I had been the oneSo you made your decision
I guess it's you that I'll be missin'
I lie alone in bed just wishin'
That I had been the one, that I had been the one
