

It's Been Eight Years

The Radio Dept.

It's been eight years
I'd like to travel through time
But I can't do that
I never knew that good experiences
Could cause a pain like this
I want something that I can't have

I close my eyes and someone is calling my name
I lean over the window pane
And in the distance I can just about catch a glimpse of us
We had a ball
We had it all
