

Let It Grow

Maximum Balloon

I don't wanna need another one
Cause I only ever really feel like me
When I'm with you I don't wanna need another one
Cause I only ever wanna be myself
When I'm with you I don't wanna see another one
Cause I only ever wanna look one way
And that's at you I don't wanna hear another word
Cause I'm only gonna feel one way
If I can't stay with you From a tree a forest grows
It could turn into anything
It's ok to let it grow
Let it grow into everything I don't want to be the one who goes and fades and fades away
I don't wanna be
Don't want to be another memory Gonna bring the heat when the winters come and ease the pain
Gonna bring the sun
Rise and set with you everyday From a tree a forest grows
It could turn into anything
It's ok to let it grow
Let it grow into everything Look outside at what's become
No we're not tired
We can try for eternity Look outside at what's become
No we're not tired
We can try for eternity From a tree a forest grows
It could turn into anything
It's ok to let it grow
Let it grow into everything I wanna be the one you love
I just had to let it grow
