

# ...At Worlds End

## Astorian Stigmata

Well I guess I'll never know  
If you were ever my best friend  
Cause a shattered heart don't realize  
That all this pain will end  
And it hurts so much to let your insides die  
But in time you may just find  
That they never yet have come alive  
But I would've stayed until the end

And I stumbled around around in my own blood  
When I wasn't quite yet dead  
And I tore out my own broken heart  
And I strapped it to my head  
I let the mind and the soul  
Go fight their wars  
As I watched from another life  
And I let you steal my light  
But I would've stayed until the end

Cause you took me away to a better place  
Then you left me there for dead  
And my mouth don't always get along  
With the voice inside my head  
And I'll sleepwalk through the death of me  
Cause I know this night will pass  
And there's a beautiful life ahead  
But I would've stayed till the end

And if you got a problem  
Know that I can't always solve it  
But I'm sure I'll do my very best  
And I know I'll be your friend  
But when the rain drops down from a sunny day  
You may never trust again  
But I hope you never give in

Cause the unpredictable heart  
And the wandering soul  
They'll tear you the fuck apart  
Just to let you go

But may they never break your spirit  
And I would've stayed till the end

Cause you took me away to a better place  
Then you left me there for dead  
And my mouth don't always get along  
With the voice inside my head  
And I'll sleepwalk through the death of me  
Cause I know this night will pass  
And there's a beautiful life ahead  
But I would've stayed till the end
