

# Don't Let Them

## Other Lives

When you break free  
The powers that be  
Have failed to discover  
The lies we believe

Your mind is clear  
Of things that you fear  
They fade with how much you  
Believe what you hear

Don't let them get away with it  
Yeah  
Don't let them get away with it

And don't you know  
You reap what you sow  
The ones now in power  
Are the ones who we chose

Oh how they try  
To make us choose sides  
But it's more than a question  
Of who's wrong and right

Don't let them get away with it  
Yeah

Don't let them get away with it  
Yeah

Don't let them get away with it  
Don't let them get away with it
