## Blaq Poet

It's been along time comin locked in the lab wit a infa-red pen and a pad  
A lot of chicks in tha game sound da same can't switch they style an they making me laugh  
They tickle me like (ha,ha,ha) it ain't that hard spit raw 16 bars  
don't make me have to pull your card rip it apart get'em shocked like they all seen god  
I got'em stuck amazed lost in a daze cause the pen don't stop for days  
4 weeks 4 years I keep it movin driven by fears never losin  
Playin 2 win the game I'm in making they head spin  
Industry was needin me like emphysema patients need oxygen  
Cop whips off the the lots again rockin all spots I'm in  
North, South, East, West overseas and back again  
DJ's fiend for the wax 2 spin some of ya'll gon need some practicin  
Got everybody in the world sayin damn that's Sarai on the track again

This is how it's gon be I've been workin hard  
For this puttin in all I got I'm a be a star for this  
Yo pardon Miss. excuse me but you got to make way  
I ain't new to this stay true to this been doin this since back in the day  
I been puttin in work writing so much that my whole head start to hurt  
Up so late fall asleep hands on my face so tell me what its worth  
(It's Official) I stepped on you fell off and the don't miss you  
Bomb shit like missiles while you rip easy like wet tissues  
Issues you got to deal wit phenomenal styles is how I sealed it

Hot flows hot beats I know you got to feel it  
I keeps it real wit everything I do don't have to pull tha front for you  
No they can't believe they ears how she spit the way she do  
It's official

You know how much time I spent at home  
writing rhymes fiending for a microphone  
Like Eric be & Rakim I had dreams to move the crowd  
get everybody rockin one shot wit tha infa-red dot hit you right in tha pocket  
Haters will try & block it but there's just no way to stop it  
Go slow fast fiction or fact go ahead pick your topic  
when the fire ignites I hop on the flight headed to tha top just like rockets  
I'm dedicated finally made it y'all don't know how long I've been waited  
Mrs. Strawberry blonde wanted it bad so you know I'm about to get it on  
(get it on)

It's been so long I've waited

And I can't believe that I  
Finally made it  
It was all a dream till I  
Dedicated  
My life to tha game so you can  
Feel me baby
