I Am Ready

Doc Walker

I'm not afraid of standing in the middle of this open space
This sunny day will step aside and make way for the coming rain
Whatever is waiting? I am readySo wash the mountains away but this is where I'll stay
I'll be holding strong and steady
'Cause I spent way too long running from the storm
Well not anymore, I am readyI couldn't wait to stand and show the world that I had what it takes
Tried not to break but I learned that falling down don't mean
You lose your way
Whatever is waiting? I am readySo wash the mountains away but this is where I'll stay
I'll be holding strong and steady
'Cause I spent way too long running from the storm
Well not anymore, I am ready
