

Horror Epics

The Exploited

Third world countries starved of nutrition. Look to the west to end their starvation. Skeleton framed figures of
what was children. Real relief for the sickly

THAT'S RIGHT PUSH YOUR TEA TRAY AWAY FROM YOU BEFORE YOU SPEW UP IT'S A FACT
REAL LIFE IS MUCH MORE HORRIBLE THAN FICTION

That's right turn the switch elsewhere on your telly Wasn't it disgusting to view such bloated bellies Writhing
tortured bodies ant like on the ground That's right turn the volume button down Inhumanities free westerners
still know exists Do nowt to help the underprivileged Action not words are needed to help But all they will say
is that someone must pay Third world countries starved of nutrition Look to the west to end their starvation
Skeleton framed figures of what was children Real relief for the sickly
