

# Wild Things

## Dexter Freebish

Late night, neon hotels  
That's where the wild things are  
Next door, you think that you're safe  
That's where the wild things are Lock yourself inside  
Maybe you'll find peace tonight  
Don't run away  
From what you don't know no, no The things you don't show, the secrets that you grow  
Keep 'em in, in a good hiding place  
While you're sleepin', I know you're dreamin' of a good  
Yeah, a good hiding place Closed doors, is somebody home  
That's where the wild things are  
Back streets, abandon this life  
That's where the wild things are Lock yourself up tight  
Maybe you'll find peace tonight  
Don't run away  
From what you don't know no, no The things you don't show, the secrets that you grow  
Keep 'em in, in a good hiding place  
While you're sleepin', I know you're dreamin' of a good  
Yeah, a good hiding place Oh, it's so mysterious when it's on TV  
Oh, it's unpredictable and then it happens to me The things you don't show, the secrets that you grow  
Keep 'em in, in a good hiding place  
While you're sleepin', I know you're dreamin' of a good  
Yeah, a good hiding place
