Fat Chicks

Trisha Paytas

All my Fat Chicks, where you at?
(x3)
Now drop it low and shake that fat.
All my Fat Chicks, where you at?
(x3)
Now show 'em why we thick like that.
Show 'em why we thick like that.
Now drop it low and shake that fat.
Show 'em why we thick like that.
Now drop it low and shake that fat.

Yeah, you see me here
I flaunt my body now
Watch me turn it out
Ooo! And you wonder how
Oh I'm no stick figure
Oh baby that's okay
I'm so beautiful
In my own way

All my Fat Chicks, where you at?
(x3)
Now drop it low and shake that fat.
All my Fat Chicks, where you at?
(x3)
And show 'em why we thick like that.
Show 'em why we thick like that.
Now drop it low and shake that fat.
Show 'em why we thick like that.
Now drop it low and shake that fat.

Ooo baby baby
I'm gonna pull this off
And you're super right
what your boyfriend did last night
Oh he said I tight
Now you know I'm right
I let him pull my hair
Hair flip

Bye, bye, bye

All my Fat Chicks, where you at?
(x3)
Now drop it low and shake that fat.
All my Fat Chicks, where you at?
(x3)
Now show 'em why we thick like that.
Show 'em why we thick like that.
Now drop it low and shake that fat.
Show 'em why we thick like that.
Now drop it low and shake that fat.

I like the pizza
Come on and give me fries
I like the feeling of my nice warm thighs
OH!
So put ya hand, command me like that
and find a little fat
and baby smack that ass!

Now I know, I know.
Fat is just a word used to negatively bring down the girls
with a little extra junk in the trunk.
But being called fat is just a label!
A label put onto us by others who can't handle all this
WOW, WOW, WOW!
So I'll take that label and wear it
because it does not define me.
You wanna call me fat?
Alright, I am.
F-A-T
Fabulous And Tasty!

All my Fat Chicks, where you at?
(x3)
Now drop it low and shake that fat.
All my Fat Chicks, where you at?
(x3)
Now show 'em why we thick like that.
Show 'em why we thick like that.
Now drop it low and shake that fat.
Show 'em why we thick like that.
Now drop it low and shake that fat.

All my Fat Chicks, where you at?
(x3)
Now drop it low and shake that fat.
All my Fat Chicks, where you at?
(x3)
Now show 'em why we thick like that.
Show 'em why we thick like that.
Now drop it low and shake that fat.
Show 'em why we thick like that.
Now drop it low and shake that fat.
