Still Wandering

Michou

I was unaware that you talk to God about me
The more I think about that the more I think its what I need
So I'll say something charming but the language can't charm you
So I'll stay here sitting on my hands

So much rubbing together
I'm surprised there's not more sparks
With a little bit more digging
And I swear I'll reach your heart
And all that's left is darkness
And you're calling endlessly
Call for me

You said it was safe to leave our bikes by the street
And you said its just as safe to leave the world down at my feet
So even when you're late I'll just say that I'm early
And I'll stay here sitting on my hands

So much rubbing together
I'm surprised there's not more sparks
With a little bit more digging
And I swear I'll reach your heart
And all that's left is darkness
And you're calling endlessly
Call for me

So much rubbing together
I'm surprised there's not more sparks
With a little bit more digging
And I swear I'll reach your heart
When all that's left is darkness
And you're calling endlessly
When all that's left is darkness
And you're calling out for me
When all that's left is darkness
And you're calling... you keep calling
Out to me
