Stand Up

Squad Five-O

So they say that we'll never make a difference.And if we do it they don't care.What do they really know about us anyway.What do they really care about us anyway.As we all stand together.Side by side forever.They can't deny what we have done.Or what we have become.Standing strong side by side, just me and you.This time we know wrong from right.The ways of this world we will fight.This time we won't be deceived.Stand up for what we believe.
