# Autumn

## Madcap

Got few possessions in my life
Got a guitar and a TV
And I got friends who back me up
If some OC guy wants to beatI gotta say the most valuable thing
I got's the VCB
I got their backs and I know
They'll always cover meAutumn's gonna do what she wants to do
Autumn's gonna say what she wants to say
She fucked over many people on the way
I hope she's happy 'cause now she's got no friendsWhat was the meaning of the things
She used to tell me day and night?
We started wrong in the beginning
But you made it seem so rightYou had me blind with all your lies
To my surprise, you were unstable
But I realize, it was your life
You just weren't ableAutumn's gonna do what she wants to do
Autumn's gonna say what she wants to say
She fucked over many people on the way
I hope she's happy 'cause now she's got no friendsAutumn's gonna do what she wants to do
Autumn's gonna say what she wants to say
She fucked over many people on the way
I hope she's happy 'cause now she's got no friends
