Like A Dream

Outloud

Like a dream
I was taken back to uor first days
You and me
We were kissing in the silent rainHeading forth nowhere to go
Where i'll end up, i don't know
Point me in the right direction
Lead me to my homeBut I am not alone
I have my dreams, my hopes and fears
That you might let me go
And I will never rest
Until the day I find myself
Breathing my last breath
Upon your chestLike a dream
That was over by the light of day
You and me
One more time with nothing left to sayNow I'm here nowhere to go
Where I'll end up I don't know
Point me in the right direction
Promise me your loveBut I am not alone
I have my dreams, my hopes and fears
That you might let me go
And I will never rest
Until the day I find myself
Breathing my last breath
Upon your chest
