Undone

The Bird and the Bee

Is today just another day
Just like any other day
For we going to change this mind
Keep around like we've got mountains of time
Won't you come and sit down
Yes right here on the ground
Tell me the story of how we met
Not that I never let you forgetI wanna be yours
I wanna be ours
I wanna do the stuff in the back of your car
I wanna be good
I wanna be cruel
I wanna be the girl that you wanted in high school
I wanna be a mild
I wanna be clever
I wanna feel this way forever
I wanna be the one
I wanna be the one
I wanna be the one that makes you come undoneYou can make me feel like a girl
Just shout out the rest of the world
Lay your head on my heart
Or you can just pull my body apart
Is today just another day
Just like any other day
I think we just changed this mind
We've got tiles of timesI wanna be yours
I wanna be ours
I wanna do the stuff in the back of your car
I wanna be good
I wanna be cruel
I wanna be the girl that you wanted in high school
I wanna be a mild
I wanna be clever
I wanna feel this way forever
I wanna be the one
I wanna be the one
I wanna be the one that makes you come undone
