

# Small World (part One)

## Huey Lewis & The News

All around the world  
There are people like you and me  
From the poorest beggar in the street  
To the richest king and queen  
Some people take and then they never give  
Gotta learn to give and take  
If ya want to learn to live  
In a small world, small, small world  
Now we can fight one another  
Like they do on TV  
Or we can help one another  
The way it's supposed to be  
If we all give a little  
It could really mean a lot  
It's a small, small world  
But it's the only one we've got  
Small world, small, small world  
Small world, small, small world  
It's our world, it's our power  
Small world, oh  
Small world, small, small world  
Our one and only small world  
You gotta learn to give if you want to live  
Small world
