## Heaven Shall Burn

Supervision end to end and unprovided  
For events beyond control  
Once committed to progress  
Now impelling the downturn, unable to confess  
Megalomania, fueled by long gone visionaries  
Reign of misguided futurist No reason to see, the cataclysmic silence they still teach  
In the name of progression, admitting of no option  
Technology evangelists misled  
An evocation of relentless distress  
Now fallen from the highest of your victory  
Still undiscerning, on and on into misery Swallow their timeworn doctrines  
Absorbing the lies like released iodine  
Without protest  
There is no yearning for deliverance from malediction No reason to see, the cataclysmic silence they still teach  
In the name of progression, evocation of a certain nemesis  
Standstill in the name of progression, we lost control  
Now fallen from the highest of your victory  
Still undiscerning, on and on into misery In the name of progression, in silence they still teach  
They bought this fatal regression  
On and on into misery
