

Buried Alive

Venom

I'm alive but dead, awake but asleep
As friend gather round and mourners they weep
My mind thinks of all the things I have done
My body is cold but my heart beat goes on and on and on and on They lower me down into that hole in the
ground
I scream out for help but they hear not a sound
I fear at the lid, my fingers they bleed
Is this happening to me or is it just a dream Summon the dead
Baphomets call
Blood on my hands Let me out of here My bones are decayed, my flesh it doth rot
I'm lying in silk, take the lid off this box
My lungs gasp for air, my eyes scream for sight
I promise the rise of my body this night Summon the dead
Baphomets call
Blood on my hands Screaming in torment
I'm felling you all
Take heed of my plea
Answer my call
I'm gonna be free
