

# I'd Be Talking All The Time

**Ringo Starr**

If I talked about the good times  
There wouldn't be much to say  
For seldom happy memories come to mind  
If I talked about the sleepless nights  
You brought my way  
I'd be talking all the time  
For every dream that came my way  
A million passed me by  
I thought I couldn't be hurt more  
And then you said goodbye  
Talking now of other things

Would get you off my mind  
I'd be talking all the time  
For every dream that came my way  
A million passed me by  
I thought I couldn't be hurt more  
Then you said goodbye  
If talking now of other things  
Would get you off my mind  
I'd be talking all the time  
Yeah, Ringo'd be talking all the time
