

# I Know You

## Oh My!

Never say the words " I need you"  
Never say the words " I need you"  
I've been wandering round this town  
Looking for you all night long

Never say you're sorry for me  
Never say you never trust me  
You've been wandering round this town  
Looking for me all night long

I can walk a mile for you, babe  
Now I hope you do the same

I know you better than the rest  
You know me better than the rest

Oh, I can walk a mile for you, babe  
Now I hope you do the same

You can walk a mile for me, babe  
Now you know how to play this game

Never say the words " I need you"  
Never say the words " I need you"  
I've been wandering round this town  
Looking for you all night long

Never say you're sorry for me  
Never say you never leave me  
You've been wandering round this town  
Looking for me all night long

I can walk a mile for you, babe  
Now I hope you do the same

I know you better than the rest  
You know me better than the rest

Oh, I can walk a mile for you, babe

Now I hope you do the same

You can walk a mile for me, babe  
Now you know how to play this game

All those times you open up  
Give me time to listen  
And all those times I open up  
You never listen

I know you better than the rest  
You know me better than the rest

I can walk a mile for you, babe  
Now I hope you do the same

You can walk a mile for me, babe  
Now you know how to play this game
