

Let It Burn

Magic Giant

Well I heard you say we all die alone
And when I turned my head you were already gone
I couldn't change your mind but I could prove you wrong
These may be crazy times but I say bring it on
You been runnin in circles so long that you're almost home
Like the black crow singin one last note 'fore dawn 'Cause rivers run dry - alright
Soldiers may cry at night
Bridges could fall - that's life
Seasons will turn
And rivers run dry - alright
Soldiers may cry at night
Bridges could fall - that's life
Seasons will turn - so let it burn
Sometimes you wind up on a path that winds down
You wanna change the world but how's your hometown?
Strange how a whisper turns itself into a shout
If you keep on dancin a rough road it smooths out
Yeah, cause you been runnin in circles so long that you're
almost home
Like the black crow singin one last note 'fore dawn 'Cause rivers run dry - alright
Soldiers may cry at night
Bridges could fall - that's life
Seasons will turn
'Cause rivers run - alright
Soldiers may cry at night
Bridges could fall - that's life
Seasons will turn
Rivers run dry - alright
Soldiers may cry at night
Bridges could fall - that's life
Seasons will turn
Woah, oh (x3)
Seasons will turn
Woah, oh (x3)
Seasons will turn
So let it burn
