

# Now I Know

## Kenichiro Nishihara

Now I know... Some may go... Show me  
the things I've seen in you before, I hope you will  
Tell me  
all the dreams you've dreamt sometime before you knew were real  
Some things change for good along the way  
We were young and nothing could go wrong  
First true love to take my heart away  
I was caught up in games till I found you  
Now I know why my love is so strong  
Some may go through life unnoticed... but you won't  
Kiss me  
the way you did when we were kids behind the stage  
Flirt with me  
You know your eyes might pass me by like it was just a phase  
But I couldn't take my eyes off you  
Some things change for good along the way  
We were young and nothing could go wrong  
First true love to take my heart away  
I was caught up in games till I found you  
Now I know why my love is so strong  
Some may go through life unnoticed... but you won't  
Now I know why my love for you has been so strong  
Some may go through life unnoticed wondering why, but you won't  
What's the chances of us ever meeting  
again, faith means delusion  
Looking real good, haven't seen you since high school  
Got rid of my crew, but ain't a damn thing changed  
how's you, I got some time but you got your last name, huh?  
I know you still got that smile I used to kiss  
It led us(?) my graduation over those lips  
Yo, it's fun to reminisce about the good times  
Now I completely know why you'd still be on my mind  
Now I know why my love is so strong  
Some may go through life unnoticed... but you won't  
Now I know why my love for you has been so strong  
Some may go through life unnoticed wondering why, but you won't...
