# Undertow (Spooky Remix)

## Lush

So you want to be alone
Run and hide inside your homeWatch you fall away from me
Sinking into miseryTaste your smile and hold my hand
Make you laugh and make you danceI remember this
Everything was in our kissSink my hands into the sea
Reach your fingers up to meTrust me one more time
I can only tryThrow yourself to me
And I'll try to pull you freeLet me try to pull you free
Let me try to pull you free
