

It's Gonna Work Out Fine

Carole King

Now we've been putting each other
Through a hard time
And it's a mighty good feeling
To know we're gonna work it out
It's gonna work out
Yeah, it's gonna work out fine
Take a look at the way it's going now
Makes you want to give a sigh of relief
You know the last thing I ever
Wanted to do was to give you any grief
I guess it was a situation
That was bound to come up someday
But our feeling for each other won out
And I'm oh so glad to say
We've been putting each other
Through a hard time
And it's a mighty good feeling
To know we're gonna work it out
It's gonna work out
Yeah, it's gonna work out fine
Even the best of relationships

Run the risk of going awry
There's a lot two people who care
About each other can do to make each other cry
Ain't it funny how it took a reunion
To help us to really see
With each other is the only
Way we can ever be
We've been putting each other
Through a hard time
And it's a mighty good feeling
To know we're gonna work it out
It's gonna work out
Yeah, it's gonna work out fine
Oh, it's gonna work out fine
I know it's gonna work out fine
Oh, it's gonna work out
Yeah, it's gonna work out

I know it's gonna work out fine

It's gonna work out fine

It's gonna work out fine
