Alice In Wonderland

Brian Mcfadden

Girl stuck on the side of the street
She says why is everyone crossing in here
She says there has got to be somewhere else, somewhere people don't shoot each other
Girl doesn't like watching TV, much feels better if she don't know too much
She's coming from somewhere else, somewhere
Where gravity don't stop people
And all that I hear fills me with fear
For your protection and I feel what do 'cause you always remind me of her
'Cause you run when you feel insecure
And you always remind me of her
And you're lost in your own wonderland
Girl lives in a country house, she's got white rabbits
To chase the spiders out

She'll turn into someone else
All it will take is wants in her bottle
And all that I hear fills me with fear buts that's your protection
I feel what do 'cause
'Cause ya feel what ya do
And you always remind me of her
And you run when you feel insecure
And you always remind me of her
And you're lost in your own Wonderland
Feel what you do, yes I feel what you do...[repeat]
And you always remind me of her
And you run when you feel insecure
And you always remind of her
And you're lost in your own wonderland.
