Every Knee

Galactic Cowboys

Snowy cold December
Weather never worse
Last time that I saw him
Last time we conversed
I struggle to remember
Slumping silhouette
Never standing taller
He spoke with no regret
Every knee will bow
I'm a new man come to life my eyes are open
Eyes that showed contentment
Face was not the same
Smile was never bigger when I called out his name
You have seen who I was before
But I'm not that man anymore
I can tell you why I'm here
Can you see beyond the door
Do you know what life is for
Do you know why you're here?
Snowy cold December where do I begin?
A day was never better
Cause I knew where he'd been
