Battle Cry

Judas Priest

Hail the hero coming home
Honor bound from whence he roamed
Fortitude and skill
Call of duty all aloneLead the nation for the crown
Serve the orders coming down
Charge ahead with pride
Guard the chivalry you've shownThose forsaken reawakened with my battle cryIndestructible by choice
Valor rings out with the voice
Rail the consequence
Destiny's the flag you hoistYour endeavor lives forever with my battle cryBattle cry
Death defy
Battle cry
Never dieCast this sorrow to the windLet tomorrow be the light you're made to herald inLike a master of the seven seas
Your reputation's grown
This eternal flame's been sownPraise for sacrifice that's done
Well deserved you carried on
Let your hearts be full
For those heroes every oneRestitution absolution with my battle cry
Exoneration condemnation with my battle cryBattle cry
Death defy
Battle cry
Battle cry
