

Little One

Elliott Smith

One more little one
I'll go down, stay down
Sleep the rest of the day
Dream new music to calm down
Stay down, keep evil away I can hear you sleep
Changin' your shape
Dissolved in some dream
As a new one appears
To take you along where you've never been One two three four five six seven
The moonlight tonight seems to belong to me
'Cause I even though, some can't sleep
I need some company One hit wouldn't matter bit
I'll slow down and see
What's here to find
If it's good check, I won't know
And I won't know the fact that I'm dying If I seem to be reckless with myself
It's the fault of no one
All things have a place
Under the moon
As well as the sun One more little one I love you
