Trouble

Citizens!

I've been minding me own sweet business
I've been keeping me record clean
Yeah I've been keeping myself out of trouble
But trouble always seems to find meLet me tell you how I'm feeling (I'm in trouble)
I see you every night in my sleep (I'm in trouble)
Oh I get the shivers (I'm in trouble)
And I'm praying that you're in trouble tooSee I didn't mean to come to this party
I was happy back at home with my guitar
But the summer breeze swept me out the window
Now I'm praying I don't take it too farWe've been living up town, fooling around, never had it so good
Tears in your eyes, cracks in the ice, tape on the windows
Calling my name, pulsing through my veins, nothing left over
Tell me you're old, did it in the road, telling me it's overI'll tell you how I'm feeling (I'm in trouble)
I see you when I'm sleeping (I'm in trouble)
Oh I get the shivers (I'm in trouble)
And I'm praying that you're in trouble tooJust when I think that I'm all out of hope
She comes along and whispers in my ear (I'm in trouble)
Say that again, exactly what I wanted to hearSee I'm so tired of talk and excuses
I didn't bring you here to make a deal
And you know, I'm so bored of living on the surface
Going to die if I don't find something realWe were living up town, fooling around, never had it so good
Tears in your eyes, cracks in the ice, good time all the time
Calling my name, pulsing through my veins, nothing left over
Tell me you're old, did it in the road, telling me it's overI'll tell you how I'm feeling (I'm in trouble)
I see you every night when (I'm in trouble)
Oh I get the shivers (I'm in trouble)
And I'm praying that you're in trouble tooDon't go looking for trouble
Trouble's going to come and find you
Don't go looking for trouble...(I'm in trouble)
(I'm in trouble)
(I'm in trouble)
And I'm praying that you're in trouble too
