

Jesus Of Rio

Violent Femmes

Christ the redeemer towering high over Rio
Rio de Janeiro, Rio
Christ the redeemer towering high over Rio
Rio de Janeiro, Rio
Where they held a summit to save the world
And to mark the time when development as traditionally understood
Had failed
And the affluent North raping the South
Investment from the North means
Economic bondage for the South
Under the burden
Of debt payments
I was with a whore in Copenhagen

Drinking eight hundred dollars worth of Champagne
In kroner
She came from Rio
We were trying to save the world
We did not get what we wanted
She wanted money
She did not get what she wanted
I missed my wife
I did not get what I wanted
Death sat on my lap
Death sits on all our laps
While Christ the redeemer towers high over Rio
Rio de Janeiro, Rio
