I Wish You Well

Cara Dillon

The leaves fall from the trees like gold
And I tell you that I love you so
The river sings, it's time to go
What lies ahead we'll never knowAnd summer brings sweet memories
When we danced all night on the dusty streets
With an angel watching over me
Your love has brought me to my kneesChorus:
Well I've loved you and I wish it so,
Wherever you decide to go
Yes I've loved you well I wish it so,
Wherever you decide to goWe kissed under the tired moon
And the stars shone down for me and you
We listen for the cock to crow
Come break of day you had to goChorusI didn't want to let you leave
I didn't wanna tell you no
Cos I know how to make you feel
And I don't wanna let you goI didn't want to let you leave
I didn't wanna tell you no
Cos I know how to make you feel
And I don't wanna let you goLaa la la la ohh
La la la laChorusYes I've loved you well I wish it so,
Wherever you decide to go
Yes I've loved you well I told you so
Wherever you decide to goI've loved you well
Wherever you decide to goI've loved you wellFour times:
Winter brings sweet melodies
Come back to me
