## Catfish and the Bottlemen

Love her from the get-go  
Pick her up from heath-row  
Whenever she needs me Watch her on the west end  
Pepper up her best friend  
Whenever she needs me Cause she was a different league  
When I was nothing much  
She was a different league  
And I was nothing much Meet her when the tour's up  
Hug her like a mother would  
Whenever she needs me Snog her in the kitchen  
Dance with her to lemonworld  
Whenever she needs me Cause she was a different league  
When I was nothing much  
She was a different league  
When I was nothing much  
(I was nothing much) Love her from the get-go  
Pick her up from heath-row  
Whenever she needs me
