Amorous

Machine Gun Fellatio

Baby's gone away for several days
And I'm awake and I'm amazed
I haven't shaved I haven't bathed
And I'm dismayed to say I caved
To all I'm craved I've misbehaved
I am depraved I can't be saved
I can't be saved I can't be savedChange the words and steal the riff
Change the words and steal the riff
Change the words and steal the riff
With the addition of camera lights I'm feeling amorousI'd take a bullet for you, man
I'd take a bullet for you, man
I'd take a bullet for you, manI'd take a bullet for you, man
I'd take a bullet for you, man
I'd take a bullet for you, manDreamed she'd never seen between my schemes
My smoke-screens, my hidden streams
But I'm decieved I was naive
And I won't bleed or beg or plead
For sympathy, all I believed
Is in smithereens I come in peace
I come in peace I come in peaceI'd take a bullet for you, man
I'd take a bullet for you, man
I'd take a bullet for you, manI'd take a bullet for you, man
I'd take a bullet for you, man
I'd take a bullet for you, manWith the addition of camera lights I'm feeling amorous
With the addition of camera lights I'm feeling amorousChange the words and steal the riff
Change the words and steal the riff
Change the words and steal the riff
Change the words and steal the riffChange the locks and steal the rent
Change the locks and steal the rent
Change the locks and steal the rent
Change the locks and steal the rent
With the addition of camera lights I'm feeling amorous
