

I Will Be There for You

[Tyntagyl](#)

Sunset we walk the shore, strangers but wanting more

If it's love you're looking for

I will be there for you...

Romance, mysterious, sensual, delirious

If this is serious

I will be there for you...

Orbiting around my world, you are the moon

Tides that ebb & flow are turning soon

I will be there for you...

Sunrise still wide awake, talking for talkings sake

If it's love you want to make

I will be there for you...
