

# Love Is the Key

## Maze & Frankie Beverly

Featuring Frankie Beverly Love is the key to life

The thing that makes it right

Why we can't be one I'll never know

Love is the key this time

And there's know doubt in my mind

If you really want to be free

Love is the key Love is the key that's so real

It's the kind of thing you can feel

We can make things nice If we let it be

Love is the key you know I'm right

Oh it makes you feel so dynamite

If you really want to be free

You can believe that love is the key Love is the key to life

The thing that makes it right

Why we can't be one I'll never know

Love is the key you know I'm right

Oh it makes you feel so dynamite

If you really want to be free

You can believe that love is the key

If you really want to be free

You can believe that love is the key
