Up All Night

Kbray

Up all night (feelin' your body x3)
Up all night feelin' your body

ok ok ok ok

Lets spend some quality time
with two glasses of some wine
twist a little bit of Cali pine
and blow a little bit of smoke unwind girl

Your ex was bad, but you have no clue how bad mine was
she had me feelin' so insecure from the start until the time was up
yea, but in your eyes I know I see something different
and you've got the natural type of beauty I could never find in other women, You've really got me feelin like these other girls aint' worth a single minute..... so I put thought into every single word that i said from the beginnin'

(and im feelin your body) Yea well,
But i gotta say i like the way you think more,
You've got a good heart what more could i ask for? Hmmm
Louis V purse, the watch Chanel, Wayfayers on givin' all the haters hell, they're hatin' cause they're fakin' but you're real and they can tell

I'm thinking this is worth a try
and don't worry I will not leave I'll stay right by your side
I'm thinking this is worth a try

Up all night (feelin your body x3) x4

Has anybody ever said that you're benevolent? heaven sent?
Got me second guessin' my textin' recollectin' your expressions and the lack of tension, and I'm bettin' that you're a little bit impressed with my vernacular, oh girl you're so spectacular got me up all night like Dracula..... got these other girls so mad at cha, spreadin' all these rumors but its amature, addin' insult to the damage cause injury didn't rhyme what i said was good enough
looks so good without any makeup with her hair pulled up
in those black yoga pants
with a Tiffany necklace around her neck and a matching bracelet on her right hand..

I'm thinking this is worth a try
and don't worry I will not leave I'll stay right by your side

I'm thinking this is worth a try

Up all night (feelin your body x3) x4
